

PremiershipLIVE

About

PremiershipLIVE is a distributed application that serves as a portal for football fans to view online content such as videos, fixtures and news, and share and search information including fan-provided content.

News & Fixture Viewer

- When the user first opens this page they can select any one of several Premiership focused news readers from the top dropdown list. This then populates the Title Viewer Box to enable the user to select an article and read the headlines. A link to the full article on the Website is also available.
- This page also has access to a database containing the current season's fixtures list.
- Fixtures can be accessed by first selecting a club followed by either Home or Away. The results are displayed in a panel at the bottom of the screen

NEWS as it happens

User Media Search

The application allows users to search for content and also upload their own content. Media content can either be pictures or video.

Search by:

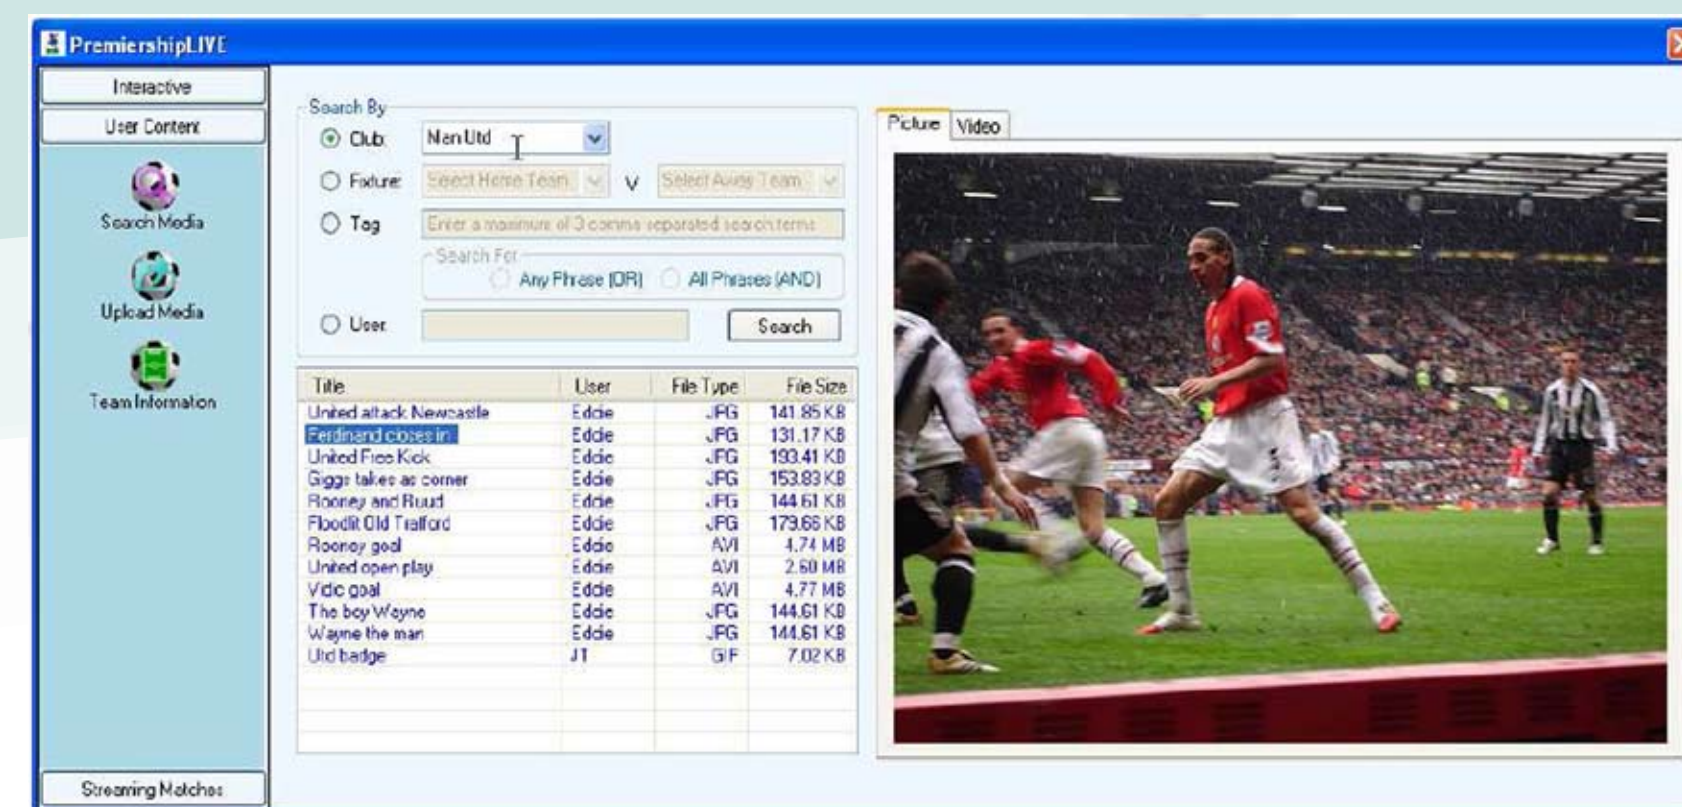

Club - the user selects a club and the search returns all media that has been assigned to that club.

Fixture - the user selects a fixture and the search returns all media that has been assigned to that fixture.

Tag - when media is uploaded to the system it can be 'tagged' with key words. Users can use the Tag search to search for media tagged with these key words.

User - if a user finds a picture or video that they like they can search for other pictures and videos by that user.

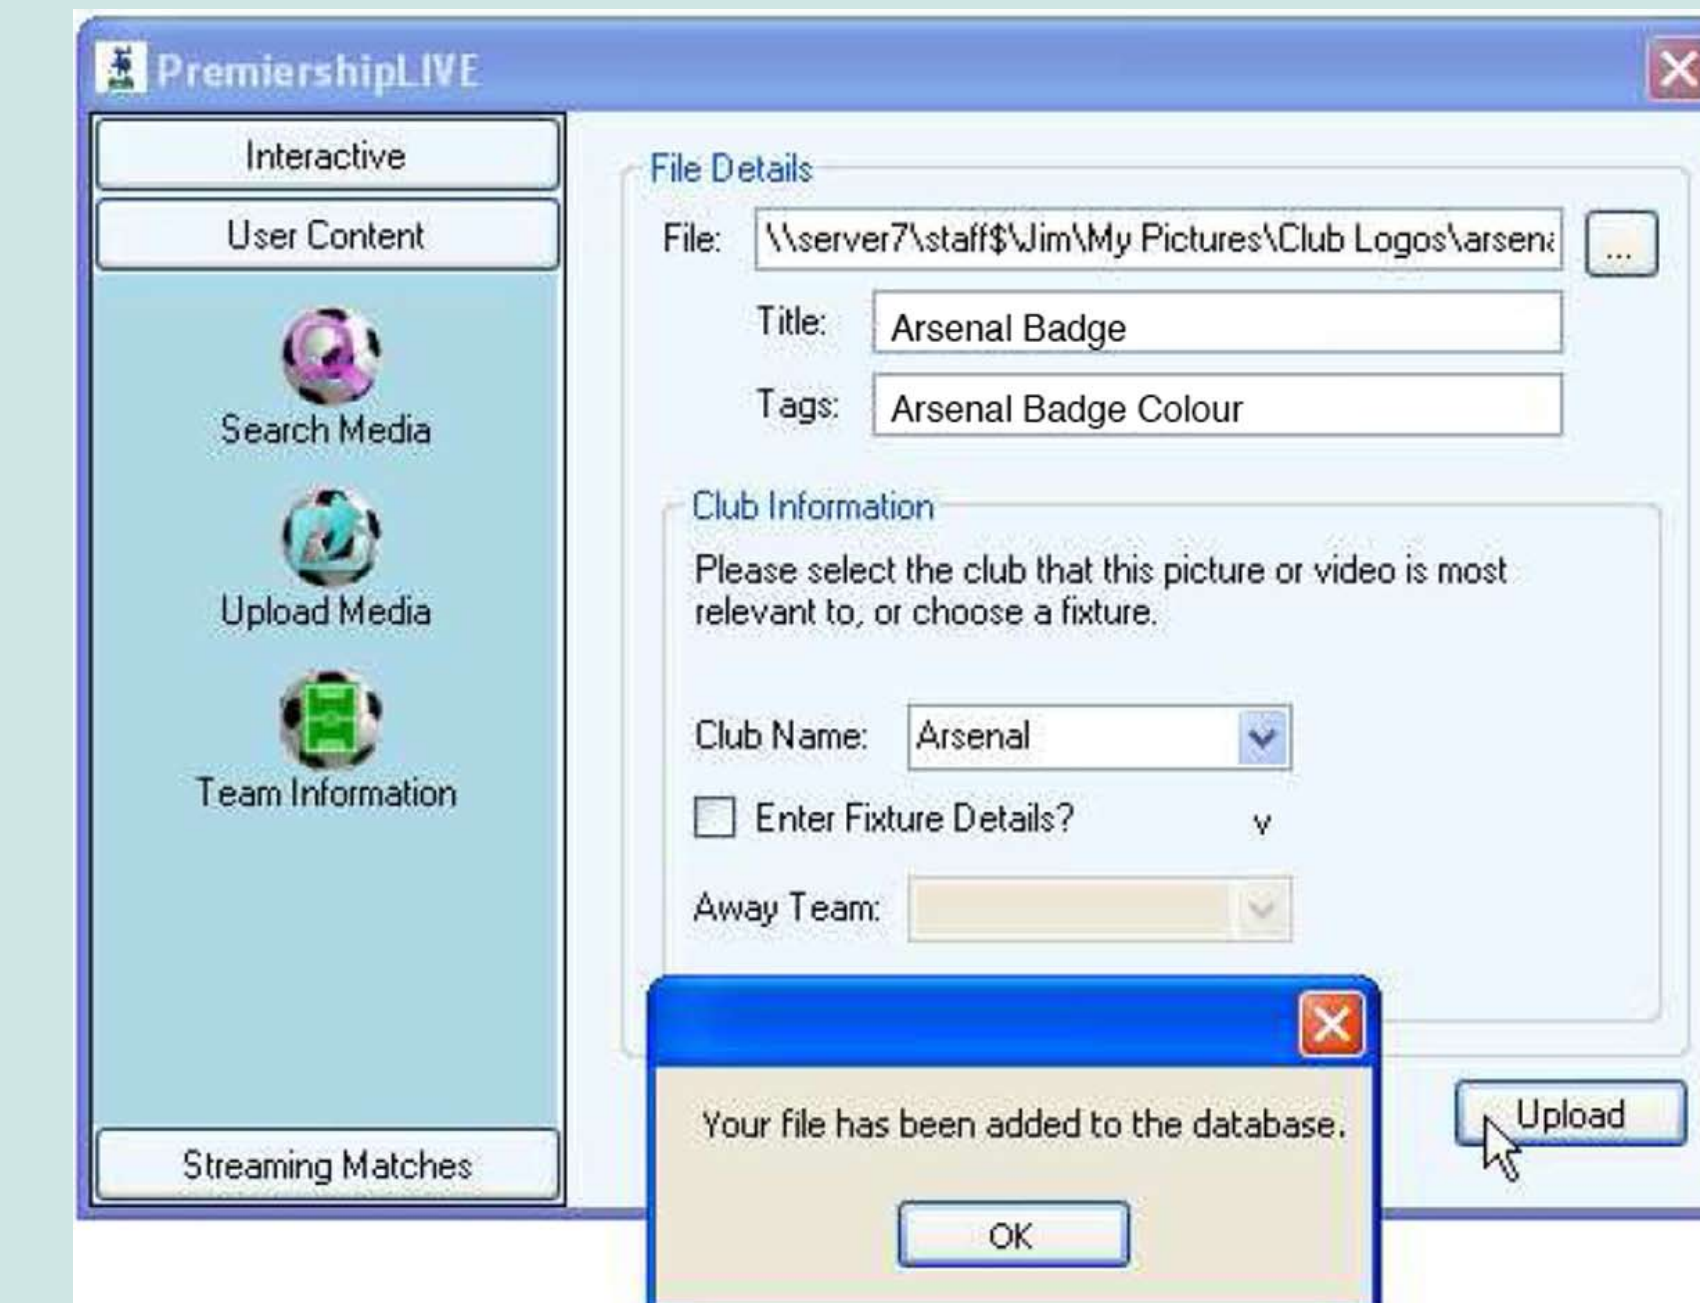

VIEW Pictures & videos

User Content Upload

- Users can upload content to the system.
- Users can browse for files (either picture or video) and then add a Title and any Tags.
- Media can be assigned to a club or a fixture. If a fixture is chosen the media is automatically assigned to the home club.

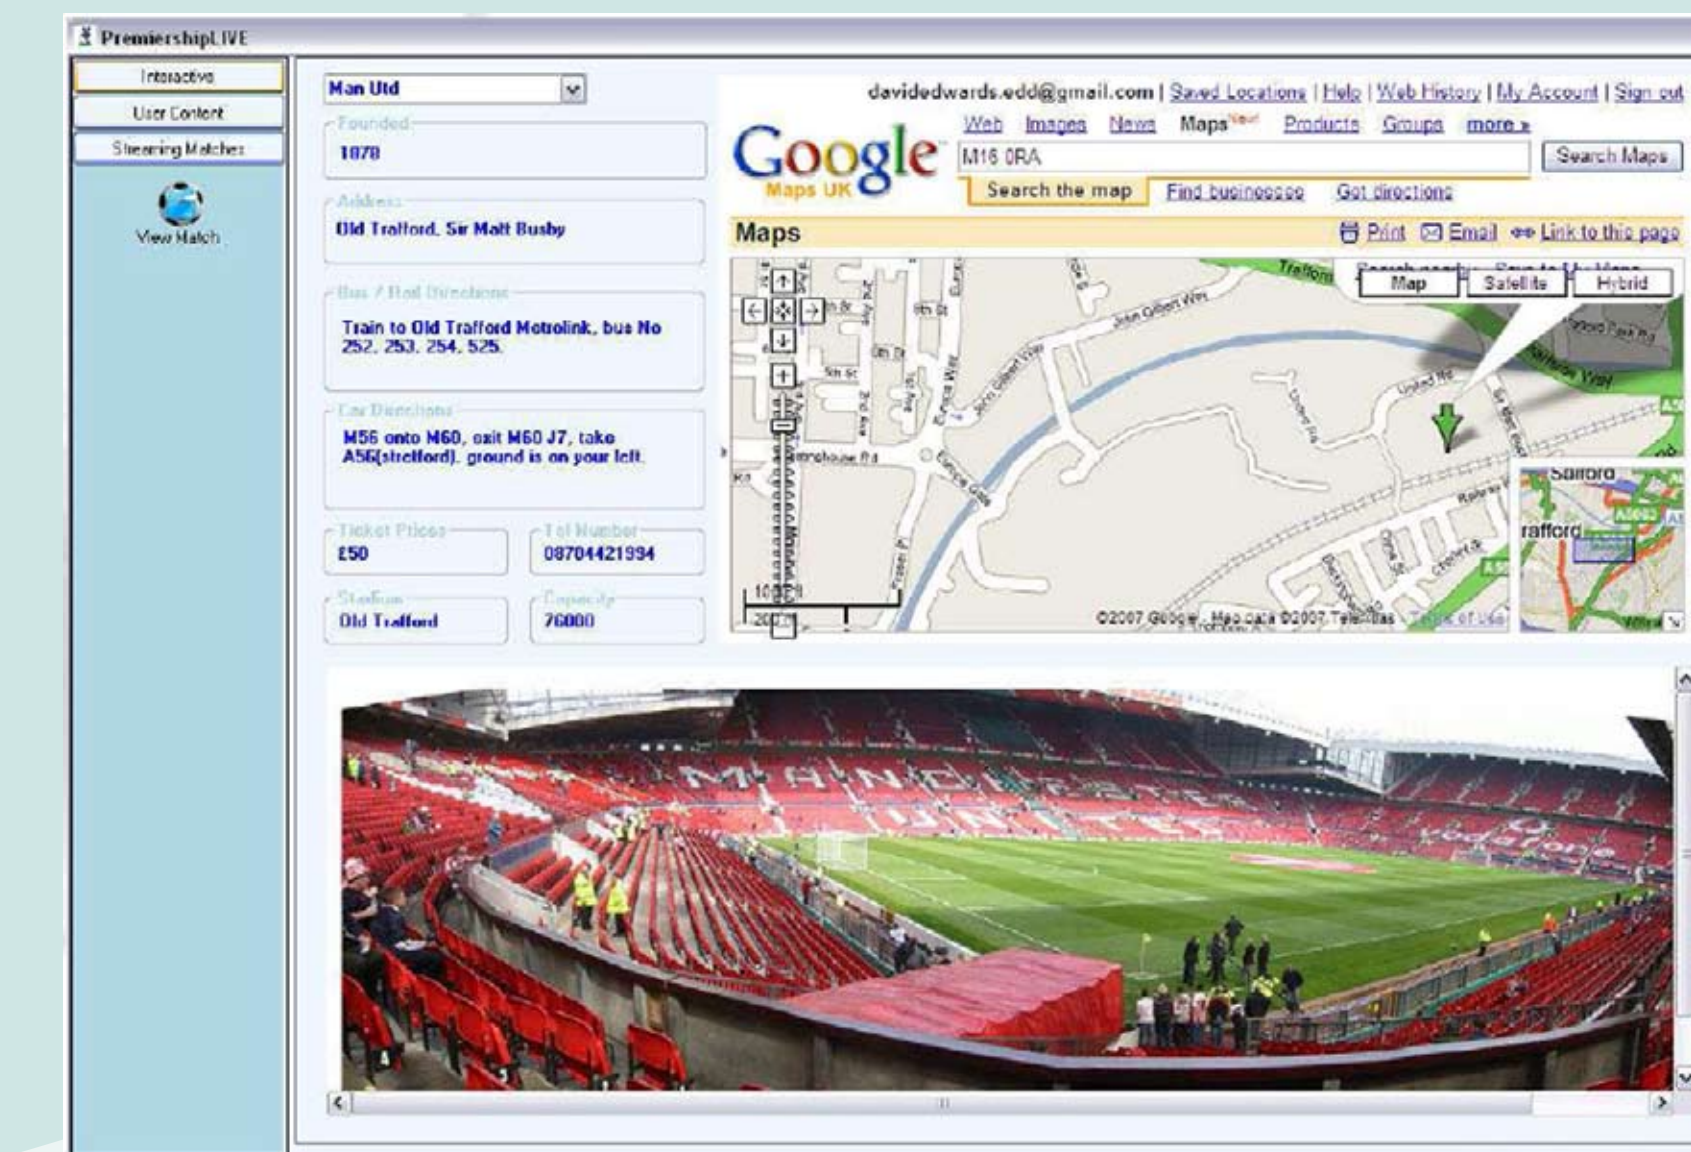

SHARE Picture & Videos

Stadium Information Viewer

- The Stadium section automatically shows the information for the club the user is registered as supporting.
- You are given the stadium name, stadium address, telephone number, stadium capacity, ticket prices, directions via car, bus or rail, a stadium picture and a Google map.
- You can also change the teams information you want to view by selecting a new team in the drop down menu

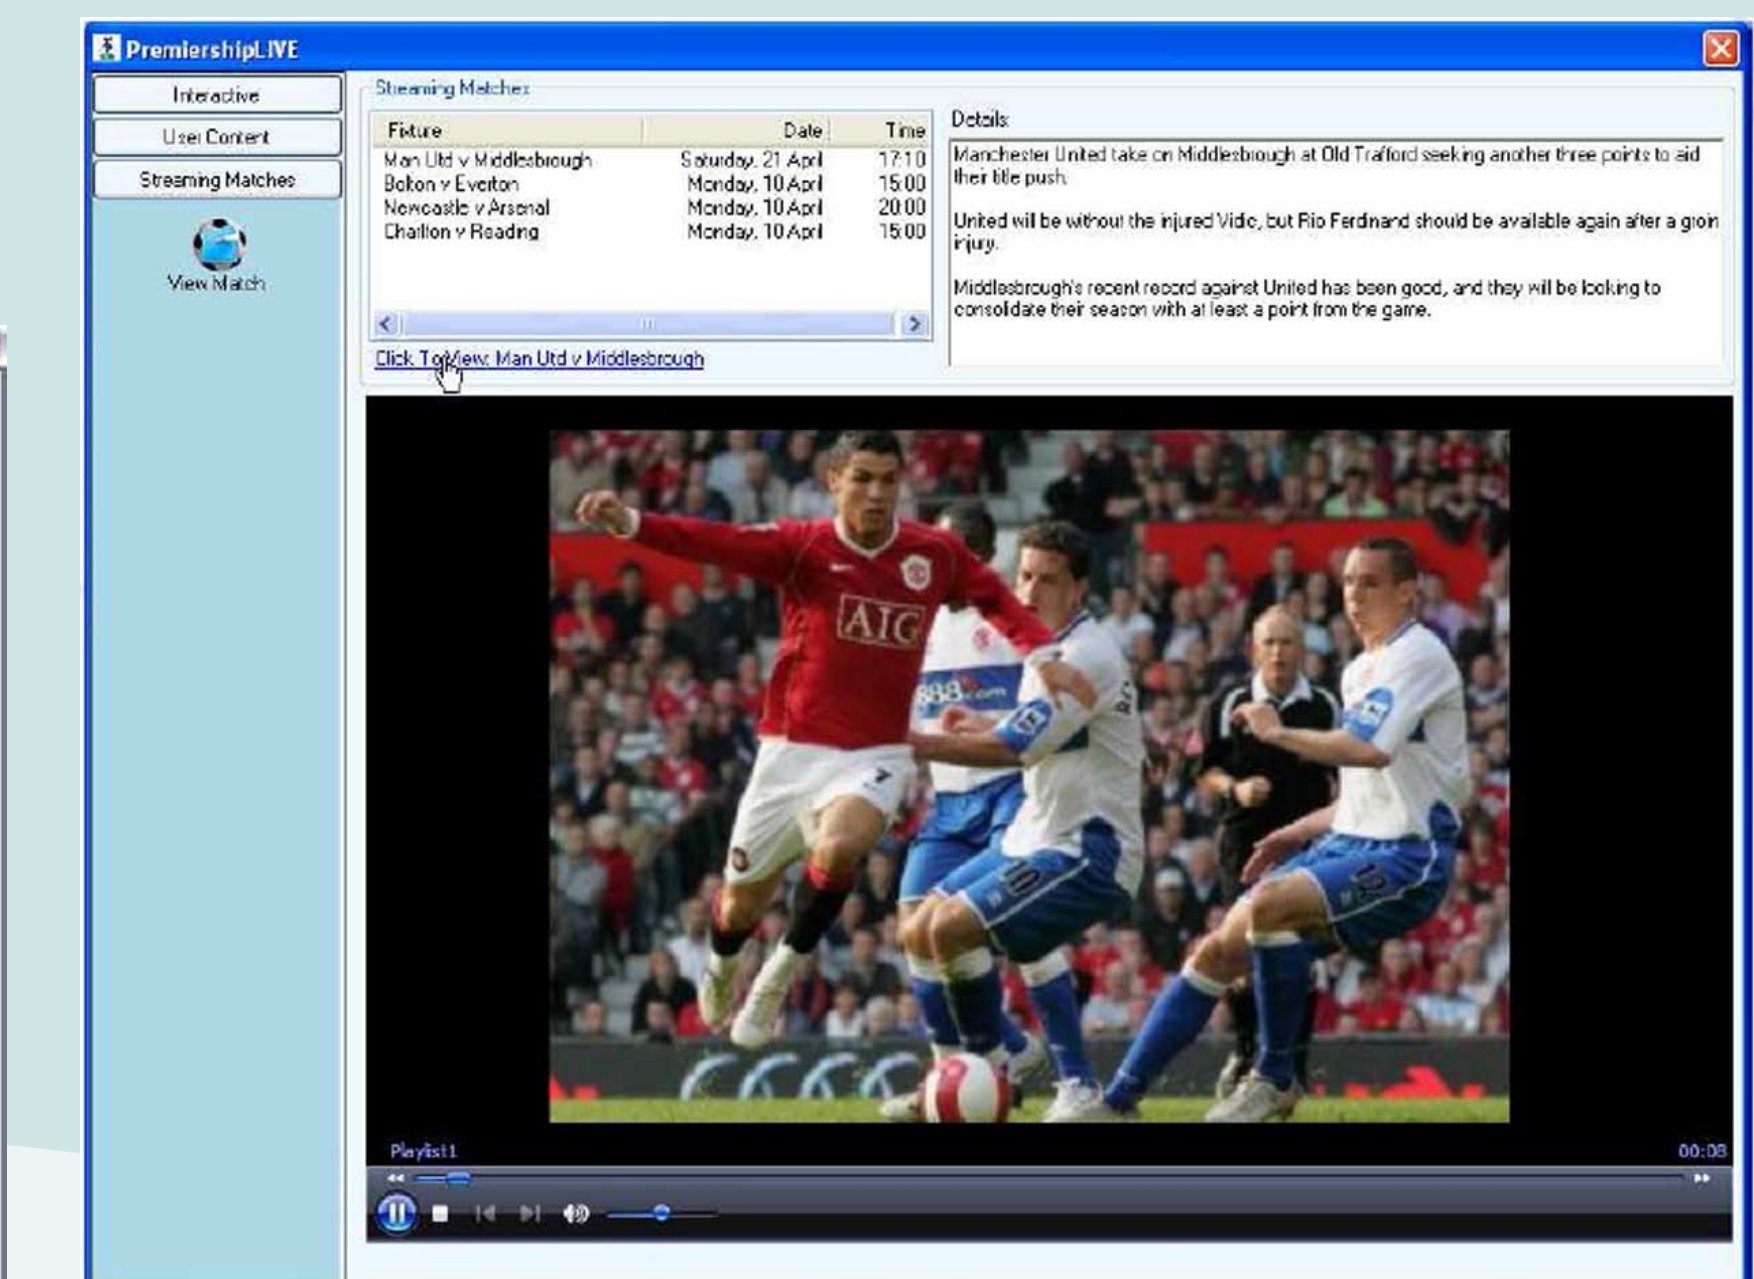

STADIUM Information

Viewing Streamed Matches

- Streamed matches made available by the BBC can be viewed within the application.
- When the user selects 'View Match' they are shown a list of available matches to choose from.
- Selecting a fixture gives some brief news about the match and presents the user with a 'Click to view' option. Selecting this option allows the user the view the match.

LIVE Games

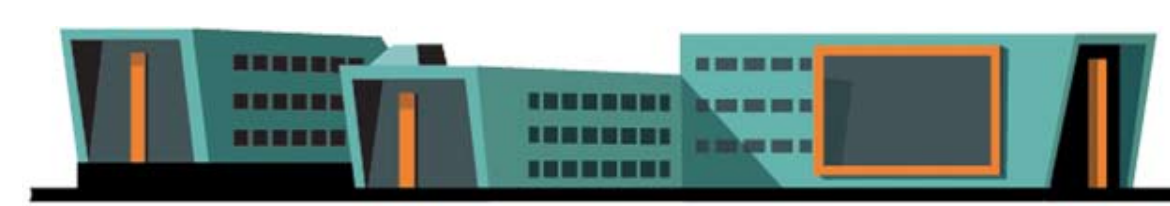

Chat Room

- Chat with your own fans in your Football Club Chat Room or have interactive football banter with opposing fans in the General Chat Room.
- Safeguard against foul and abusive language through a fully automated moderated Chat Room.
- View your clubs sponsors - with links to their websites.
- Your own customised Chat Client.
